

■ luxurytrim

Use the luxury trim to finish tile edges. Alternatively use as an attractive metal border in between tiles. Available in 100% stainless steel or chrome.

■ glasseffect listello

Can be used to give a refreshing contemporary look to any modern bathroom. Available in clear, blue and aqua.

■ naturalsrange

The naturals range of 12.5mm trims have been developed to co-ordinate with the latest trends in natural stone effect tiles.

Available in a range of colours they will compliment most modern tile designs or alternatively as a contrast will match the latest natural grout colours.

creating the perfect corner

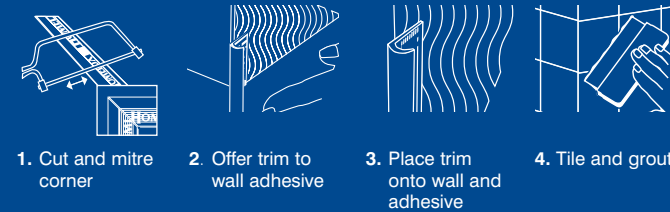

Until now it has been difficult to achieve a professional look on external corners in tiled areas. But now we have a solution.

All you need is:

- 2 x round edge ceramic tile trims.
- 1 x square edge ceramic tile trim.

how to install

■ seal

...your tiling

■ edge

Tile Trim

Tile trims are essential to any tiling project. They protect the tiles from getting chipped and damaged plus they'll create a more professional look and feel to your kitchen or bathroom.

Handy Hint
Make sure you choose the right trim for the job. Trims are available in 6mm, 9mm and 12.5mm. Check the depth of your tiles before buying the trim.

beforetiling

■ enhance

Listellos

Listellos are an alternative to ceramic borders. These decorative strips will enhance plain tiles creating a completely different look for your room. They are available in ceramic effect, glass effect and metal for a more contemporary look.

Handy Hint
This is a more cost effective way of refreshing your room, plus they're much easier to install than tile borders.

beforetiling

■ seal

Pro Sealastrip

Designed to provide an effective long lasting PVC seal and are ideal for use between your bath or shower tray and the wall.

Handy Hint
Fill the bath with water at the time of installation, to prevent any gaps appearing between the seal & bath or shower tray.

beforetiling

■ ultraseal

Bath & Power Shower Seal

Most bathroom seals do not have sufficient flexibility in them to allow for the weight of a bath full of water or a person in a shower tray. This is a particular problem in properties with timber floors or where fixtures have been incorrectly fitted.

UltraSeal expands by up to 15mm to allow for any movement, which prevents the seal from being broken at the most important time.

This product is available as a pre fit seal for use before tiling or as a post fit seal if you have already tiled.

Makeover Trim

These trims are a decorative finish to hide those unfinished or chipped tile edges. Can provide a quick & stylish makeover for your tiles.

Handy Hint
Can also be used as a tile-on-tile trim, so no need to remove tiles!

aftertiling

Tile Transfers

Transfers are a quick and easy way to add style to your tiles or refresh existing tiles. To mount them, simply clean, soak and apply.

Handy Hint
Transfers can be removed with nail varnish remover.

aftertiling

Bath Seal

An easy fit seal to prevent water dripping behind a bath or shower tray.

Handy Hint
Could also be used to mask unsightly silicon or other sealant.

aftertiling

How does it compare to silicone..?

Most of us have experienced silicone, which has gone mouldy, discoloured or peeled away at the edges, often as a result of the way in which it has been applied or through lack of cleaning. Removing and replacing it neatly can be a messy and time-consuming process, even for experienced DIY'ers.

Ultra Seal can be FITTED over the top of old silicone, as long as the surface on which it is going to be stuck is free of silicone smears and is completely clean and dry.
